# INTRODUCTION

R. L. POLK & CO., publishers of more than 800 city, county, state and national Directories, present to subscribers and the general public, this, the 1950 edition of the Waltham City Directory.

Confidence in the growth of Waltham's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Waltham to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Waltham Directory will fulfill its mission as a source of authentic information pertaining to the city.

**Five Major Departments**

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 8 to 29, on white paper, presents lists of city, county, state and federal officials; post office, public school and fraternal organization Directories; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 33 to 439, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Waltham, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, beginning opposite page 440 and separately paged from 1 to 48, on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Waltham. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Waltham, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 441 to 492, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 493 to 590. In this section the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

## Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Waltham.

## The Waltham Directory Library

Through the courtesy of the publishers of the Waltham City Directory, a Directory Library is maintained in the offices of the Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.
Publishers.

### LOCATION

Situated on the beautiful Charles River, nine miles west of Boston, the rich and fertile plain on which stands the present city of Waltham was called "Eden Vale" by the earliest settlers. Altitude 67 feet, total area 13.56 square miles.

## INCORPORATED

In 1738 this area, which then comprised the Western Precinct of the town of Watertown was incorporated as a separate town and named Waltham, but it was not until the establishment of a paper mill in 1788 that it became anything more than an agricultural community.

## TRANSPORTATION STARTS

In 1826 Waltham achieved the distinction of a daily stage to Boston, and with the improved transportation thus afforded, became a popular residential town. One of the early Governors of Massachusetts, Christopher Gore (1805) built a magnificent house with bricks brought from England, and surrounded it with imported shrubs and trees. This house and the extensive grounds were used for several years as the property of the Waltham Country Club. The property, especially the house and immediate grounds is being restored to their former grandeur and historic attractiveness by the present owners, the Society for the Preservation of New England Antiquities.

## 1843 — THE RAILROAD

The Fitchburg Division of the Boston & Maine Railroad Company was opened for operation as far as Waltham, November 10, 1843 and to travel, December 20, 1843.

## BECOMES A CITY

Waltham had outgrown town government, and was incorporated a city on June 2, 1884. The last three decades have seen a rapid increase in the number of homes within its borders, not at all surprising in view of the advantages which Waltham offers both to those who commute to Boston and to those who work near their homes. There are excellent automobile roads, three convenient stations on the steam railroads, and bus lines which connect with the Metropolitan Transit Authority system at several points.

## POPULATION

Waltham's population in 1765 was 663; in 1865—6,896; in 1930—39,247; in 1940, 40,020; in 1945, 43,579 and in 1950, 47,198, with a potential population of approximately 350,000 residing in 29 communities that comprise the Waltham Shopping District. It is essentially an industrial city with a very definite shopping center serving many communities which latter form a complete circle about Waltham. Waltham is making a substantial growth as a residential city. With an area of 13.56 square miles, the city has ample room for expansion without overcrowding.

## TRANSPORTATION FACILITIES

Waltham is situated in the fourth largest metropolitan district, which in itself insures an excellent local market for all kinds of products. It is connected with Boston by two railroad lines, the Massachusetts Central and the Fitchburg Division of the Boston & Maine Railroad, the latter offering excellent rail shipments to the Central, West, Far West and Northern and Canadian points. Motor truck lines add to the ease of quick shipping facilities. Together with the Watertown Branch, these three roads provide ample shipping facilities, with spur tracks available when needed. It is only a short haul by truck to tap the main line of the Boston & Albany Railroad at Newtonville providing quick rail transportation to points South and West. Inter-city bus service is provided by the Middlesex & Boston St. R. R. Co.

## 1788 — THE FIRST MILL

Paper manufacturing was the chief business of the town in the early days. Here, in 1788, John Boies, taking advantage of the waterpower privileges on the Charles, built a paper mill. This was soon followed by similar mills at the western and eastern boundaries of the town. In 1812 the Waltham Cotton and Wool Factory Company started operations at the present site of the large mills of the Waltham Bleachery and Dye Works, Inc. on River Street. In 1813 came the Boston Manufacturing Company, famed the world over as the first complete cotton mill to include both spinning and weaving by power under one roof. The Waltham Bleachery and Dye Works, Inc., was established in 1820 as the first bleachery and dye works in the world.

## 1854 — WATCHES

Waltham is often familiarly called the "Watch City" because for years the making of fine watches was its principal industry. The Waltham Watch Company, one of the largest manufacturers of watches in the world, made fine watches by machinery as early as 1854.

## DIVERSITY OF INDUSTRIES

There are 194 industries engaged in the manufacture of watches, clocks, knit goods, precision machinery, furniture, enamelware, jewel bearings, plumbing supplies, paper, iron and brass castings, traffic signs, window frames, optical goods, paper tubes, dairy and poultry food, pest exterminators, mica products, electrical switches, batteries, salesbooks, loose leaf account systems, grinding wheels, rivets, builders' finish, gauges, rayon metering pumps, and radar and electronics, also hundreds of other products. (Several warehousing projects are included in the 194 firms).

## AGRICULTURE

Although Waltham has long been known throughout the world as the home of high grade industries engaged in the manufacture of quality products, it has always maintained its position as an important agricultural center. Here are located the headquarters of the Middlesex County Farm Bureau. In the beautiful section of the city known as Cedar Hill is located the Waltham Field Station, a branch of the Massachusetts State College. Experiments are in progress in vegetable gardening, fruit growing, and ornamental horticulture. Civic pride is strong among the residents of Waltham and at the Field Station our citizens receive help and free information regarding the maintenance of their lawns and shrubbery and the general upkeep of the home grounds.

## METERS-POST OFFICE RECEIPTS

Statistics of interest show 13,754 electric meters; 16,355 telephone stations, 8,396 water meters; 11,001 gas meters; postal receipts of $448,400.32.

## 2300 STORE EMPLOYEES—564 STORES

Waltham stores are well stocked and well managed and carry a complete range of merchandise at prices as favorable as any in the large centers. Approximately 2,300 persons are employed in Waltham's approximate 564 retail outlets.

## BANKING FACILITIES

The Newton-Waltham Bank & Trust Co, a fine and progressive commercial bank, has resources of $57,375,392. Waltham has a Savings Bank 97 years old with deposits of $16,218,393. The city's newest bank, The Waltham Citizens National Bank, was opened on September 5, 1946 and on December 31, 1949 listed resources of $3,206,-695.

## 24 CHURCHES

There are twenty-four church congregations, also numerous philanthropic societies, including the Waltham Community Fund, Inc., embracing ten relief, social service, philanthropic and character-building agencies.

## FRATERNAL SOCIETIES

Nearly every leading fraternal society has at least one branch in the city, while some have more than one. The stranger in the city will find here to welcome him those affiliated with his own organization.

Fernald State School for the Feeble Minded, the oldest of its kind in this country, present capacity 1,927 beds.

## PUBLIC SERVICES

Waltham's water supply is from the Metropolitan District Commission. Practically all of the residential and business districts are connected with the sewer of which there are now 77.051 miles. Disposition of the sewage is made through the South Metropolitan system. The tax rate in Waltham is a favorable one, $46.00. This has not been brought about by excessive valuations.

## VALUATION

The valuation of the city for 1949 was $64,755,700. In 1949 there were 14,349 cars registered. There are 7,176 residences.

## TWO UNIQUE INSTITUTIONS

The Hamblin L. Hovey Memorial Institute is a brick structure of attractive design, located at 545 Main Street. A main auditorium seats 1,112. A small lecture hall, served by a kitchen, accommodates approximately 100. Well endowed, its purpose is to "provide recreation, amusement, instruction and baths" without charge to the men of Waltham. Lectures and educational extension courses are provided.

The Jonas Willis Parmenter Rest Home, directly opposite the Institute, provides room and board and medical attendance if needed for stated periods of convalescence to women residents of Waltham.

The above mentioned buildings are models of their type, very well furnished and ably managed. Both are unique institutions doing a splendid work.

## WALTHAM PUBLIC LIBRARY

Gift of Francis Buttrick is a structure of beauty. Close by is the Waltham Post Office another public building of attractive design.

## BRANDEIS UNIVERSITY

Brandeis University, one of the nation's youngest institutions of higher learning, was launched in the fall of 1948 with impressive inaugural ceremonies held in the presence of the presidents and official representatives of more than 200 American and foreign colleges and universities. The University campus includes 126 acres beautifully located on hills overlooking the Charles River and sections of Boston, Cambridge, Watertown, Newton and Waltham. Brandeis is named after the late Justice Louis Dembitz Brandeis of the United States Supreme Court. The President of the Board of Trustees is Mr. George Alpert, prominent Boston lawyer. Dr. Abram L. Sachar, nationally known author and historian, serves as the first President of the University.

Brandeis admitted its pioneer freshman class of 100 students in the fall of 1948. Each succeeding class has been increased in size and in the academic year 1950-51 the three classes enrolled totalled to 450. The University's College of Liberal Arts & Sciences will be stabilized at a normal figure of 1,200. The first undergraduate class will graduate in 1952.

The University recently announced a master plan for the development of its facilities which provide for the construction of 50 new buildings during the next ten years at a total cost estimated at $22,715,000. Construction on the first buildings has already been started.

Brandeis University places great empasis upon high academic standards and limits its enrollment so as to retain the advantages inherent in a small student body. Dr. Sachar summarizes the University's objectives as follows: "Our intention is to maintain a small institution in which the student-faculty ratio shall be kept at a level where the capacities of each boy and girl may be fully developed." Brandeis participates in inter-collegiate athletic competition; offers Adult Education courses for residents of surrounding communities and presents the usual array of intellectual and cultural events to be found in any academic institution. Its plan for the establishment of professional graduate schools will be made public in 1952.

## CHAPEL HILL SCHOOL FOR GIRLS

The Chapel Hill School, formerly The Waltham School for Girls, located on Lexington Street, one mile north of City Hall was founded in 1860 by Benjamin Worcester and was co-educational. In 1912 it became the Waltham School for Girls. The property is owned and controlled by the New Church Institute of Education. The estate embraces approximately ten acres of rolling land with sloping hillsides bordered by a clear running stream and made picturesque by beautiful old shade trees. Chapel Hill School embraces studies in grades below the eighth as well as full High School courses. It is a day and boarding school which acts as a home school for young people from the lowest grades through preparation for college. Mrs Robert C. Rounds is principal.

## NOTRE DAME TRAINING SCHOOL

One of the very attractive educational institutions of Waltham is the estate of eleven acres forming the grounds of the Notre Dame Training School, and also the Provincial House of the Eastern Province of the Sisters of Notre Dame de Namur. The buildings of stucco are of plain but stately architecture, well set off by most attractive grounds. This institution is operated under the direction of the Sisters of Notre Dame de Namur which organization started its work in the United States in 1840 and in this Commonwealth in 1849 and in Waltham in 1889.

During the past year another building has been under construction and is nearing completion. This is a three-story brick structure with cloister connections to the main building on the basement, first and second floors. There are about thirty-five rooms including Community rooms, Library, Class-rooms, Study Hall and recreation rooms. This building will be ready for occupancy about June fifteenth and will accommodate about one hundred novices.

## GREEN ACRES DAY SCHOOL, INC.

## THE WALTHAM CHAMBER OF COMMERCE

Is Waltham's largest and outstanding civic and commercial organization. Its membership embraces over 500 of the business and civic leaders of the Community. Incorporated in 1917, it has been a dominant factor in the remarkable growth of this city, thus giving a prestige to those enrolled in its membership.

## RECREATION

With parks, playgrounds and other facilities for outdoor recreation, Waltham is bountifully supplied. In the very heart of the city there is an unusually fine Common of 7.39 acres on which is located a stately as well as attractive City Hall. Prospect Hill Park is a natural beauty spot of 224.91 acres, such as can seldom be found within walking distance of a busy city. It is the highest elevation within the city limits

and a vista of over 40 miles is obtained from its vantage points. It is provided with good roads, enticing pathways and camping sites. The State Girl Scout headquarters are housed in the spacious mansion on Cedar Hill, left for the purpose by Miss Cornelia Warren. The grounds embrace acres with many interesting features and with an area for camp sites, on which Scout Troops from various cities of the Commonwealth locate their camp houses. There is also the High School Athletic Field of 9.94 acres and 11 active playgrounds of 49.38 acres competently supervised with an efficient corps of instructors. The Charles River, with facilities for boating and canoeing in the summer, and ice sports in the winter, has long been famed as a pleasure stream in New England.

## MOTOR ROUTES

For the motor enthusiast, Waltham is an ideal center. Many main thoroughfares converge at Waltham Common, giving a choice of routes to the Berkshire Hills, Cape Cod, or the White Mountains. U. S. Route 20 passes through Waltham to Boston, 9 miles east. Route 128 bypasses the city at its westerly boundary with Weston.

## LABOR SUPPLY

Waltham has both skilled and unskilled labor. Much of this population is native New England stock with a permanent residence in the city. Fire hazard and insurance rates are low, land values and rents are reasonable.

## INDUSTRIAL SITES

Industrial sites are not too plentiful. A few are still available. The Waltham Chamber of Commerce can give assistance.

## ADVANTAGES OF WALTHAM

Good government, splendid roads, fine schools, congenial social conditions, a high standard of citizenship, convenience to shipping points, nearness to a market, excellent transportation facilities, sanitation above the average, abundant recreational and amusement facilities, the advantages of homes in the open spaces combined with urban conveniences—these are the qualities that go to make a city desirable—and Waltham has them all.

The Waltham Chamber of Commerce, composed of over 500 business and civic leaders of the city, welcomes inquiries and will be glad to make a complete and intelligent survey of the situation for acceptable prospective industry or business.

Waltham will continue to register a very definite increase in population, development of its Retail Shopping District and during the next five years will make a decided gain in the number of new residences. With a very favorable cost of living figure and a proximity to Boston, the Waltham district is proving very attractive to many industrial and business houses in addition to home seekers.

Librarian—Leslie T Little.

Assistants—Raymah H Smith, Helen M Nims, Mrs Mabel I Viscounte, Eliz D Castner, Geraldine M Murray, Jane Pride, Mildred P Simpson, Mrs Lorena P Weatherly, Harriet Carter, Marjorie Ellis, Mrs Barbara Russell, Mary Ridenti

The Waltham Public Library is the union of three libraries. (1) The Waltham Social Library, founded in 1798, and the earliest Waltham library, was given to the Unitarian Society, and later, in 1865, was presented to the town. (2) The early Boston Manufacturing Company's Manufacturers' Library was given to the Rumford Institute Library, which, in turn, offered all of its books to the town in 1865. (3) The Agricultural Library of the Waltham Farmers' Club was presented to the town in 1874. The Public Library was first housed (1865) in the Bank Building on Main street. In 1879 it was moved to the corner of Charles and Moody streets (Welch Block). In December, 1915, the Library was moved to the present building, which is the gift of a Waltham citizen, Francis Buttrick. The cost of the building was $124,000.

There are five Branch Libraries, the South Branch, established in 1919, located at 56 Chestnut, the Lakeview Branch, established in 1925, in the Nahum Hardy School, the Trapelo Branch, established in 1932, in the Phineas Lawrence School and the Grove Hill Branch, established in 1937, in the Bright School, and the West End Branch, established in 1944, in the Nathaniel P. Banks School.

There are about 143,871 volumes in the Library. About 227 newspapers and periodicals are received. There is also an excellent collection of pictures on every subject, arranged in Classified form, which may be taken from the building. The Library undertakes to help all by supplying information and in looking up difficult reference questions when requested.

The circulation in 1949 was 337,788, an average of 8 books per capita. The City appropriates about $58,000 a year for the support of the Library and its Branches. There are in addition 8 endowment funds. # Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

**Your City Directory Contains:**

**1** An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

**2** A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

**3** A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

**4** A *"Yellow Section" or Buyers' Guide,* where the advertiser may explain in greater detail the services or products he has to offer.

**5** A *Statistical and Historical Story* of your city; plus miscellaneous other information.

## Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

## 1950

Copyright, 1951, by R. L. Polk & Co.

**Giving the location of Streets, Avenues, Places, Parks &c, showing what other streets and places run from or across them.**

The **Streets** are arranged in **Alphabetical order** with the location of **Intersecting Streets** clearly shown.

**The Boston Postal District in which Waltham is included has been divided into numbered zones. Mail addressed to Waltham will carry No. 54 as part of the address.**

Names of residents and business houses are arranged in numerical order upon their respective streets; on streets that are not numbered ciphers are used in place of a street number.

Business places are denoted by bold face numbers and business being given.

When a person's place of business and residence are the same place, it is indicated by business being given and abbreviation h at the end of the line.

After the name of a street the word **Street** is omitted; the words Newton, Lincoln and Lexington, when referring to city or towns of those names, are followed by the word **Line;** when not followed by the word **Line** they are names of streets.

*An asterisk preceding a house number signifies that the house is incorrectly numbered.

Streets which have not been accepted by the city are indicated by an asterisk.

Streets, a part of which have been accepted and a part remains unaccepted, are indicated by two asterisks.

The symbol ◎ following the name of a householder indicates that the house is owned by the person listed, or by some member of the family.

This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Telephone numbers as supplied to us on our canvass are shown opposite name. (Exchange is Waltham unless otherwise noted).

**Abbreviations** are listed at beginning of Alphabetical Section.

(The numerals that appear at right edge of columns ahead of street descriptions and some street intersections are merely for the guidance of the publishers and have no other significance).
